

COMMUNITY MENTAL HEALTH FUND

Supporting equitable and quality mental health care in Jackson County.

We are supporting mental health agencies in Jackson County to respond to COVID-19. To date, funding includes:

- More than \$175,000 in technology grants to currently-funded agencies. This is keeping families and mental health staff connected.
- Emergency changes to over \$8,000,000 in current contracts. As of early April, remote services using telecommunication can be billed, and audited. This supported continuity of care and minimized effort from agencies.
